Hello!

I am looking to invest in Hosting business.

I need to ask few things

1- Is there any good potential of this ?

2- How much will it cost initially ?

3- How to proceed in to this ?

I am open to all your suggestions. Guys, who have been in this business are most welcome.

Juts guide me the procedure and tell is there any potential in this business ?

Thanks

Hey is your partner Maverick#0990 on discord?

He asked me to make that logo on your site and didn't even pay...

That's not cool.

Good, he might scam you. Anyway you should remove the logo I made, unless you want to pay for it. PM me if you want.
