Thread: [The Best Method Currently on HF \[4/5 SOLD\] *Refund Guarantee*](#)

Tech - November 2, 2017, 11:13 am

I have been spending the last month doing this method and making a decent sum of money doing so. I have had other obligations so I have only been spending 2 hours maximum per day doing this.

This method will be getting a service (transportation in USA) for significantly cheaper than it is sold for and reselling it elsewhere. I will show you where to resell (different based on your location, so no, it will not be saturated) for profit.

This service is in high demand in the United States (only place it will work) every single day it is used more than one hundred thousand times. The service is in demand in the United States but you can do the method if you live outside the US.

You can expect to earn \$50+/day

I can show proof to serious buyers via screenshare and explain more information and answer questions on skype/discord.

For more info please PM me with a discord or skype to contact you on.

Price:

Copy 1: \$150 ETH / BTC - SOLD, BUYER EARNED HIS MONEY BACK, VOUCH POSTED BELOW.

Copy 2: \$200 ETH / BTC -- SOLD -- 11/15

Copy 3: \$200 ETH / BTC -- SOLD -- 11/15

Copy 4: \$250 ETH / BTC -- SOLD

Copy 5: \$250 ETH / BTC

Refund Guarantee:

I will guarantee that if you don't make more than price you paid within 1 month. I will refund you. You should however make this back significantly faster than 1 month.

Added the above line for all the sales trashing.

[/size]

Originality:

This method I have not seen before and it is not public unlike most of the eBooks I have bought.

Content:

The method is not provided in the form of an eBook but the seller provides step by step with details in what you will be doing in chat. He will show everything including pictures and his profits.

Method:

This is a one way method on how to make money. There will be a low investment of \$10 and less in order to start the method. Which could yield to up to \$30-\$200 profits back based on the proof that is shown. This method can be done worldwide.

Difficulty:

This is not very difficult to do, but will take time. Effort will be needed when making your first sales. The difficult part might be finding customers to sell to, but he will walk you through getting your first sales and will provide sources. No lazy people are fit to do any eBooks.

Price:

The pricing for this method is good and not overpriced. This is because it is not public like every other guides. Any type of method could get saturated, this is why selling a limited copy of this is a good thing.

[font=Calibri, sans-serif]Overview:

I could see this method working and is the BEST method I have bought out there as you will get a LEGIT FULL SUPPORT. I rather have this \$150 method then any other \$40 eBooks. So if you are thinking of investing in a \$40 eBook, forget about that and invest in methods like this.

Update:

One of the BEST investments I have bought on HF.
Can take a bit of time to setup, but once its complete then you will see the results!

I thought I'd never say this, but finally there's actually a legitimate method for sale on Hack Forums, a method that will earn you money if you put in work. It can be saturated, but the chances of that happening are slim to none because Tech has decided to keep the buying limit within a reasonable range. I'm very pleased with the information I've received, and I will return in a few days with an update, with proof of earnings. I vouch for this method.

How come every time someone makes a method and posts up "proof" they dont talk about % profit..

I could buy a 100\$ item and sell it for \$101 and still only profit 1 dollar. Do you see how These proof screenshots mean nothing ?

You spend average \$5 per sale. No more than \$15 (for a huge sale that would net more than \$200).

Edit: You would profit about \$95 for every \$5 invested to be more clear.

I am not saying that you can just put \$5 invested then earn \$95 every minute. This is how much you are investing into the service you sell.

And how long would it take to receive the profit?

Tech - November 2, 2017, 3:01 pm

You would receive the profit immediately. You are selling a service though so that requires you have a buyer.

It's not like you can invest \$10 and get \$200 back every 5 minutes. You need to have a buyer for that service.

This is selling a service. It requires a buyer which I have already stated. Please don't trash sales when I clearly stated you can't just earn that every 5 minutes.

Added in a refund guarantee if you don't make more than the money you paid.

For that large sum, you should allow the use of a MM to hold the funds until the user who buy the method make his first sale. Then the method is working and the MM release the funds.

I've been fortunate enough to get my hands on the second copy that Tech is selling. I haven't implemented the method yet, but Tech has assisted me in the best possible way to earn from this method. I thought I'd never say this, but finally there's actually a legitimate method for sale on Hack Forums, a method that will earn you money if you put in work. EDIT:

Sadly I haven't earned anything as of yet, I've been putting a good amount of work in and almost had success, but failed. I believe that there's a luck factor to this method, one day you might earn \$100 and some days nothing, it depends. I will hopefully be able to edit this again with proof.
