Thanks !

Not trying to be a dick but shouldn't you focus on getting Eclipse active before buying a second one? Romania seems to be the only one really doing anything within the group.

We have some difficulties with the SRPP purpose. But we are getting our shit together to change the way the group is now.

I'm buying a second group that I'll not lead, the purpose of the second group will be something that everybody is waiting for, and it will be very easy to handle.

But thanks...
