you say your brother nearly died? why didnt you report it to police? if its true that his face was destroyed and near death then he would have gone to hospital.As per law, hospitals themselves report such cases to police. why was your case not given to police?

whose ex?give us the truth.Bro,god bless that girl. what did you do against her and got caught? now you are scared.maybe she should come here and tell the truth

First of all i would like to state what i said is true.
I am Not a Abuser and what u said.
Its not getting reported because my little brother doesnt want to report that.
Thats not my choice. what so you expect me to post 100% full story on forums of only parts of it?

It really is my brothers Ex. Imhappily with someone for 7 yeats.
God bless that cheating abusing manipulations controling whore? nah no thats.

then what do you wanna do Imfao
i dont think hacking is the path. heres a quick guide that usualy works in these situations

1. get a ski mask or something to cover your face thats kinda scary. costs maybe 2-5\$
2. get a shitty baseball bat from walmart. maybe 10-15\$
3. find them at night, call them out to a location that's empty
4. beat their heads in
5. ???
6. profit

find a flaw in my plan (protip: you can't.)

I don't know what you expect people on here to do about it? Do you expect to find an ebook on here
on how to deal with this? I'm very confused as to what you're trying to find on here by posting this.

You either snitch to the police or you hurt the guy who hurt your brother and then bang this beyotch
in front of him while he bleeds out to assert dominance.

Or you can just post about it here and stall, I guess.
