Thread: [Need someone to run a common password cracker through a list of runescape usernames](#)

Need someone to run a common password cracker through a specific list of RuneScape usernames (1000+ of them) that I will be giving to you. I'm sure I could do this myself but i'm clueless as fuck as to how to obtain a cracker so this will be easy money for whoever can help.

Payment will be anywhere between \$2-\$7 per account cracked depending on the status of the account.

If I was you, I would learn how to crack them yourself. Someone is going to message you saying they can do it, and then just take your list and crack them themselves and take the loot.
