Thread: [Boost Mobile Referrals \\$25 Service Credits - Cheap](#)

MysteryPackages - November 6, 2017, 2:12 pm

As some of you may know, Boost Mobile offers \$25 to new and referring parties of Boost. You give me your link, I will get you your referrals. Each Referral cost \$5. "You get \$25"

Only \$5 for one \$25 Service Credit.

I'm willing to be paid after the referral is verified by trusted members here.

Obviously this offer is only valid for Boost Customers..
Post here if interested.

In my opinion you would have to explain how this method works more deeply, the reason being is as knowing you are a new user with no experience. You would have to give vouch copies first to get credibility you are at least somewhat legit.

Well I believe the process is explained and what happens when you get a referral is painted yellow, but as far as how I'm not interested in teaching others, and for results.. I'd take payment after the deed was completed. Start out in a honor stsytem till I build trust Erebus.

I'll do a few vouches for anyone who may be interested. Enjoy
