no.6 really it's like a monster

Mr.Cat - November 7, 2017, 2:54 am

16 Fact or Faked did a investigation on this and the camera man admitted he added it in with CGI.
15 Probably knew there was a camera in the tree and did it as a prank!
14 It was not a large parasite could of been a gator not sure but it was not some kind of monster!!
13 was debunked with CGI.
12 another CGI already debunked notice how the guy holding the camera focuses on that one area before it appears.
11 A large rope that came loose from a barge that floated down the river collecting debris confirmed.
10 Probably CGI
9 LMAO probably the worst I have ever seen some idiot in a costume!
8 You can see the green light in the trees but when it gets lower and the color changes it still shows a green light no other color, yeah fake!!
7 The car ahead of him already had his brakes on before the object came by again CGI.
6 They do sell real life bear costumes so it would be easy for a human to do that!
5 A gas line exploded under the street that is true as for the flying thing yeah fake as hell CGI once again.
4 Was a prank there is a video on here about this!
3 That looks nothing like a human or humanoid creature.
2 Delay in the camera already debunked!
1 It is easy to put police radio chatter in video and if this was real it would be world news. Also myself being a cop that patrol car looks like it only had one rotating light on it now they have LEDS that you can see from space and the officer was not wearing a gun unless it was on his left side also he was not wearing a vest you can see how loose his shirt is. Like I said they would of put out a APB on that car and would be on every news channel! There is no way in hell you could tell what they were saying on the police radio it was probably taken off a police scanner and added in the video!

From the comments.

GoodDealThanks - November 7, 2017, 5:08 pm

I'm sure that some of them are CGI or people in monster costumes trying to play a prank.

But there are a few that seem legitimate.

Abhilesh93 - November 28, 2017, 10:27 pm

Is it real I don't think so but nice video

johnyclubman - November 29, 2017, 1:24 am

If that's real then it scared the shit outta me.

Hustla - December 6, 2017, 10:39 am

All fake. It would be nice to see one of these creatures surface the news as one of the greatest discoveries to be authentic.

Complexiion - December 8, 2017, 5:33 am

ehh i personally think they're all fake. If they were real they would of been discovered eventually and already.
