Thread: [\\$400 made first day back eWhoring in a month](#)

Before you look at my thread, note: I will not help you eWhore or tell you my methods. Don't bother PMing me. I will not mentor you for money either so don't ask. I'm content with earning money for myself and have no intention of selling eWhore services to members on here.

Took a little break from eWhoring for a month. First day back I made \$400 in a matter of 2 or 3 hours with about 30 minutes of actual work talking to people.

Basically I just sell my pics/vids and double dip everybody who buys, so that is why I have two payments from pretty much everybody who buys.

Nice earnings man! I know you said you won't, but I'm in a real tight spot in real life. I know the basics of ewhoring and if you ever change your mind, please pm me man!
