Waiting for my BTC too. He's responsive and answering my question why it's taking so long. He's using an exchange site like Poloniex and Bittrex where sometimes it's taking so long to withdraw the BTC to another address.

Yeah.. he should have mentioned it on the thread that he use a third party service and not doing the exchanges himself.

He's buying the BTC from that website, it's probably like coinbase but a UK version of it and slower. Reason why he's using that website is tx fees are free. BTC price right now is skyrocketing, it's \$7,8k now. There's probably a lot orders from the website and that's the reason why it's taking so long. I have no complain at the moment as long as I receive the BTC. I'm exchanging \$40 PP for his 0.00548 BTC and at the moment, it's value is at \$43.

I'm bit nervous. i can't relate to faliure in meeting a deadline.

He should have mentioned that those kind of things can happen, and he use third party service. Just be open with your service...
