Thread: [What fetishes do to your wallet - 200 AGC made in one night!](#)

.KPG. - November 9, 2017, 5:06 am

So I managed to do "findom ewhoring" (good ewhorers will know what I mean) working on my special traffic source and well it freakin' worked. A dude sent me an E-Mail telling me that he would love to become my "wallet slave".. I responded him, telling him I don't make people my slaves without a nice tribute (amazon gift card) first.

So I woke up to day checked my whores mails and boom:

The voice it's me saying "lol dude wtf is going on" in german haha

I had overread that he already wrote that these codes were 2 x 100€ gift cards so when I copied the code in amazon I was stunned, how people let their sexual fetishes control their lifes and wallets :D! Anyway I will write more with that guy and will tell you here if he sent me more!
