Been like a year or so since my last tag i lack the energy to keep this up. I constantly take breaks and have no motivation but i think i still got it anyways until next time. Have a good one.

Pretty good, although I wish the lighting was a bit more intense but I feel like you were going for a "softer" looking atmosphere? Either way it looks nice.

I think i spent waaaay more time on the lighting then the actual tag itself my brain just goes into perfectionist mode when it comes to lighting but after hours i just stuck with what you see there. I am proud of my tag but the lighting still bothers me

That one is looking very nice.

Are you accepting requests?

MesaGFX - *November 15, 2017, 5:51 am*

I remember when you did this :D

Great piece bro
