Another vouch for Riksen. He had given me the opportunity for a vouch copy and I was not disappointed. This is a well-written, and straightforward ebook that has potential for great earnings - depending on how much work you are willing to put in.

GLWS and thanks again.

Judging from your rep, you've been caught selling public methods by multiple users. You also did not provide support to one of your clients when you should have. I'll pass on this one.

Patzan - November 18, 2017, 5:40 am

Got a vouch copy pretty fast and took a few days to check it out.

Methods are really nice and can get you some money. I earned a nice amount in a small effort which I think deserved to say the book is good.
