Thread: [Scammer # uid:3621295 \(Got my account banned for false rep too\)](#)

This guy got my account banned for false accusations on his reputation because I have him a +0 saying he scammed me for \$10.

And he scammed some other guy too (looks like he is banned now too).

I can provide a screenshot of our private message on HF if an admin could kindly unban my account?

It is actually fucking hilarious that I get scammed and then the scammer gets my account banned for giving him a +0

You should read the rules, you have to include the thread link you can't just make an accusation.

He doesn't have a thread link. I posted a thread in Service Requests (Looking to Hire) and he private messaged me.

I would post more stuff BUT UNFORTUNATELY the scammer banned my account LMAO.

You were banned for leaving an invalid scammer reputation. I can tell you right now that your original account won't be unbanned. This one won't last long either. Before getting banned again I'd recommend checking out the help documents.

Tell me how is this invalid? I got scammed so I left him a +0 because I can't leave - reputation on a l33t account.

So a scammer that has been scamming alot of people for small amounts like \$10 will not get banned? He will keep on continuing to scam?

Like I don't understand what do I have to do to report a scammer? Because screenshots of him

promising to do my work and then blocking me purposely clearly isn't enough?
