You need a positive reputation to post in any marketplace.

Edit: I wouldn't be surprised if you get a negative reputation for making this thread.

What do you mean by this?

You need your reputation total to be at least 1

He asked a question that could be answered by reading the rules, or by posting a thread and reading the big fuck off message that says "You need a positive reputation to post in the Marketplace". One would think members make these type of threads so one would feel sorry and give them a +1.

He saw that like he clearly stated in the thread above, he wasn't sure if there a certain amount of positive rep he needed. Also I see no evidence of him making this thread for that purpose?

You think to much kiddo. Maybe you can read my original thread before commenting? I asked how many which is clearly not written in the help section.

Thanks for the clarification mate.

The message that you got was enough to know. It clearly states you need POSITIVE REPUTATION, which means anything that is above 0. Use your brain.

The paid graphic section is in the marketplace. To post in the marketplace you need neutral or positive rep in total.

That might've been answered like twice 30 minutes before your post, not sure though. Weird.

You didn't get it right, read it again. If he can post with neutral rep then how come he is getting the message he's getting?
