It needs to be said that I had little faith in the longevity of my account when I first purchased this service. However, many months on and I am still going strong and have 100% access to every Adobe app (how can that not be worth \$5?). As a fellow HF seller, Horus God really ticks all the boxes in terms of friendliness, availability and willingness to help. I will - and, indeed, have - recommend this service to anyone out there with even a little creativity and urge to learn.

Thanks, Horus.

Chocothunda - January 24, 2018, 8:44 pm

I bought a similar service a month and a half ago from a different user. Yesterday I got a notification that I no longer had access to the Adobe Creative Suite and to contact my network administrator. Will the same thing happen if I buy it from use because I used the programs every day for work/school and being without them has made life more difficult. Sent you a request on skype, looking forward to hearing from you soon.

Reviewing [Horus God](#)'s Adobe shop.

Service: [Adobe Upgrades & Admin Accounts \[Cheap Service\] - \[One Year Warranty\] - \[Instantly\]](#)

Product Quality and Originality: Being that this is a direct account/service upgrade I must say not much room for "originality" exists. Horus has several competitors in the market but sets himself in front by being the first (that I found) to offer a one year warranty.

Product Sales/Support/Feedback Analysis: While testing this service I never came into the need for assistance but the vendor is very active so if a time does come I would not expect an issue.

Product Price at Time of Appraisal: \$250 for Admin account (100 licenses) | \$5 for a single upgrade | \$50 for Admin account (10 licenses)

Appraisers Suggested Retail Price: Pricing on this is very dependent on the market and length of use. Horus God offers a 1 year warranty which makes the \$5 price tag for a single account unbeatable(given it is legitimate). The adobe value of these service for a month are \$49.99/ month or 50% off for students which is an easy discount to cash in on. If this service stays active for one years time you're saving(s) could reach up to \$550! Compared to the rest of the market here on HF Horus offers the lowest price point as well as what seems to be the most reliable upgrades.

Overall: I love this service due to the fact it removes one of the biggest barriers to entry (for some creatives) in terms of software. As smooth of a service you could hope for in the fact that it didn't have hiccups in service. If you are looking for a service providing Adobe Suites, I haven't found reason to go outside of Horus God's, good luck with sales ? .

Bennynguyen100 - February 16, 2018, 7:34 pm

There nothing stopped working all our subscriptions are working fine.

if you have bought one year plan, renew date of plan will be next year.

Lifetime Plan is 5 Years.

Are you still able to make more accounts and offer upgrades now?
Yes, we are not like others sellers we are using a unique method for getting these upgrades.

And before you claim it's stopped working, here some steps to check its stopped working or not

Open Adobe website and login and check your plans

if Creative Cloud For Teams is still, there its mean you are okay everything is working perfectly. If not just hit me up.

if you have any problem just hit me up.

Hi Horus God.

On August 1st, I purchased a 6 month upgrade (Order ID: 338948e9-1f7b-4155-a8a7-b5713706fc4a) and today it deactivated. Only 15 days had passed.

Can you please re-activate it for me?

Thank you.

Hi, I recently bought your 1 year subscription and everything was working fine until my Lightroom

CC says I needed to buy a membership to use the "develop" function? I added you on your Skype but you can also PM me. Thanks
