Thread: [3 Char / 4 Char Xbox Gamertag Lists | x3 Dumps | Cheap Access | 781 Gamertags](#)

remake of previous thread, instead of selling singular tags I am selling entire gamertag dumps

Welcome to some of the biggest and cheapest Xbox Live Gamertag dumps! Essentially what is paid for is access to a large .txt file which contains a lot of gamertags, 95% of 4 character gamertags are claimable, whereas as little as 5% of 3 character gamertags are claimable. Gamertags can be checked either on the Xbox.com website, or on console. This is a revamp of the previous thread, as a lot of people were PMing me wanting a list of the gamertags, which of course I couldn't do as they are claimable gamertags, meaning if they saw it they'd be able to take them. I decided to make an even cheaper dump variant of the previous thread, which means you will have access to a large list, and can pick what you want to claim while being able to sell or simply keep the other couple hundred that you don't use yourself. The prices are also far cheaper, tens of dollars cheaper if you compare it to the other thread.

To clear up confusion before it begins, there are multiple copies of each dump being sold. If you want the entire dump yourself which means ONLY you will have access to that dump, you will need to buy all of the same stock. Gamertags will never appear in a different dump. If you don't mind someone else having access to the same dump, simply purchase one copy!

Dump 1 (4 characters) - x143 Gamertags - [BUY HERE](#) - \$5.00

[SALE] Dump 2 (4 characters) - x638 Gamertags - [BUY HERE](#) - \$2.50

PayPal & Bitcoin are both accepted. Chargebacks will be dealt with in the deal dispute section, and will not go unnoticed.

There is no way at all that is correct, I have positive karma for those accounts on Selly. Can you list all of these?
