Thread: [Get up to 6% off on Amazon, 3% off on Newegg - Even better deals all the time](#)

If you are interested in this please PM me or post below. Either is fine. You do NOT need to do both.

This works best for US residents. This only applies to Amazon.com, unfortunately no other Amazon domains.

I will be sending you my referral link so that we both benefit from this. You get \$10 PayPal or mailed check after purchasing something over \$25 by using my link. I respectfully ask that if you are not interested to please just move along and not trash my thread. We are a community here and we should help each other out.

There are no restrictions on who I will offer this to except for those who have numerous scam reports open. All members are welcome to PM me any time.
