He messaged me and said 'keep an eye on your rep'

could this be evidence of a gang-rep?

minutes after, a person name Fussy repped me saying
Neutral (0): Deal with caution. Search his UID
I believe he is affiliated with @Reach because fussy repped him a few weeks ago, also mentioning that he is 'legit' when he was possibly planning an exit scam

I negged you because you have multiple deal disputes open. Even minimalist has a thread on you.

@Winter - November 16, 2017, 7:59 am

Yes because I'm telling people about your disputes, didn't ask them to do it.

So you just negged him because of that? Did he ever do anything to you?
If everybody jumped off a cliff, would you too?

I think he needs reputation like that so people don't get scammed by him?

Invalid scam rep.

Report that specific rep above as invalid scam rep (after you give him the PM mentioned in [Help Docs](#) & waited 24 hours) and all of the reps together as gang rep. Pretty sure that they're multi-accounting anyway.

keljobeljo - November 16, 2017, 8:29 am

He already Neg Rep me Because i warned other users about his SCAM behaviour...

No valid deal dispute thread, which is supposed to be posted by the person who made the rep, has been linked. Therefore, invalid scam rep.

Still confused what this alert is about? Just seems like you're angry about rep. Resolve your dispute and i'll remove mine, simple.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

Quote: Also, a reputation accusing someone of being a scammer must be followed with a link to the scam report thread that you have made.

Against the rules bud.

@OP

You're making a case out of nothing.

Fully having understood, comprehended and even linked the rules; you decided to do the same thing that the last guy did. Another invalid scam rep.

Linking to a DD (which isn't even yours) is still invalid scam rep, don't mistaken yourself and think that not mentioning the word 'scam' makes your rep more valid. You're still indirectly calling him a scammer in the end by linking a DD.

The guy is a moron though, obviously you're responsible for the codes that YOU are selling to other people.
