Thread: [\[Open Source \] MetroSet UI - Another Step Into The Metro Design World.](#)

Narwin - November 16, 2017, 11:36 am

Intro

- Metro design is a modern design language used by Microsoft which is more demonstrated from windows 8, [click here](#) for more info about Metro Design.

MetroSet UI

- MetroSet UI is the advanced .NET windows forms user interface with a lot of property and functionalities which uses metro style as the base of the design, it styles the .NET applications the metro, this UI is totally customizable and supports custom themes that can be made by users using xml file templates.

User Friendly

- MetroSet UI built as far as possible to be more and more user friendly , nearly every single properties can be customized in design time and also can be made as external theme too.

Supported Platforms

- Windows XP.
- Windows Vista.
- Windows 7
- Windows 8.
- Windows 8.1.
- Windows 10.

Dependency

- .NET Framework 2 or higher.

- Custom Theme

Spoiler [\(Click to View\)](#)

Controls & Components :

Components

- Style Manager.
- MetroSetToolTip.

Forms

- MetroSetForm.
- MetroSetMessageBox.

Controls

- MetroSetBadge.
- MetroSetButton.
- MetroSetDefaultButton.
- MetroSetCheckBox.
- MetroSetComboBox.
- MetroSetContextMenuStrip.
- MetroSetControlBox.
- MetroSetDevider.
- MetroSetEllipse .
- MetroSetLabel.
- MetroSetLink.
- MetroSetListBox.
- MetroSetNumeric.
- MetroSetPanel.
- MetroSetProgress.
- MetroSetRadioButton.
- MetroSetRichTextBox.
- MetroSetScrollBar.
- MetroSetSwitch.
- MetroSetTabControl.
- MetroSetTextBox.
- MetroSetTile.
- MetroSetTrackBar.

Using MetroSetForm

C#.NET

Code using MetroSet_UI.Forms;

```
public partial class Form1 : MetroSetForm
{
    public Form1()
    {
        InitializeComponent();
    }
}
```

```
}  
}
```

Visual Basic.NET

Code Imports MetroSet_UI.Forms

```
public class Form1 : Inherits MetroSetForm
```

```
    Sub New()
```

```
    End Sub
```

```
End Class
```

Using MetroSetMessageBox

C#.NET

Code using System;

using MetroSet_UI.Forms;

using System.Windows.Forms;

namespace MetroSet_UI_Example

```
{  
    public partial class MetroSetForm1 : MetroSetForm
```

```
    {  
        public MetroSetForm1()
```

```
        {  
            InitializeComponent();  
        }  
    }
```

```
    private void MetroSetButton1_Click(object sender, EventArgs e)
```

```
    {  
        MetroSetMessageBox.Show(this, "Content", "Caption", MessageBoxButtons.OK,  
MetroSetMessageBoxIcon.Question);  
    }
```

```
    }  
}
```

Visual Basic.NET

Code Imports MetroSet_UI.Forms

```
public class Form1 : Inherits MetroSetForm
```

```
    Private Sub MetroSetButton1_Click(sender As Object, e As EventArgs)
```

```
        MetroSetMessageBox.Show(Me, "Content", "Caption", MessageBoxButtons.OKCancel,  
MetroSetMessageBoxIcon.Question)  
    End Sub
```

```
End Class
```

How To Create Custom Theme For This UI ?

- An example of the custom theme file can be found [here](#), the xml file can be edited using any editor, the properties stored as hex color type that can be replaced as fits the applications.

Source

[Github](#)

Download From Nuget

Code Install-Package MetroSet_UI

Final Note

- MetroSet UI is an Open Source UI and it's almost like a framework , for any bugs and recommendations you can contact me, I may work more if I get enough time for it.

Dotexe - November 17, 2017, 5:38 pm

Great release Narwin, every theme you made so far is just amazing !

IllegalSkills - November 17, 2017, 6:23 pm

Looks pretty neat to me. Keep doing what you're doing, buddy!!

kevy42 - November 19, 2017, 8:43 am

Very nice looking :). I might switch from metro

nyoi - November 19, 2017, 8:53 am

Do you plan to support the DataGrid control? Great release, thanks.

SaketSaket - November 19, 2017, 11:11 am

Nice looking theme Narwin... Great share ;)

IEnumerable - November 19, 2017, 1:44 pm

Wow! That looks amazing. Awesome job!

programingLove - December 1, 2017, 1:51 am

hi. i cant set Opacity on 0. what is the problem?!!

StaPol - December 2, 2017, 3:18 pm

Not bad, how long did it take you to design?

ILoveYourNaN - December 3, 2017, 1:29 pm

Good looking theme. Good job mate!

sgames - November 20, 2018, 12:16 pm

How use it ? i have added DLL to my project, but if i put metrobutton on form, it isnt create object on form, but create definition under the form ??
what i am doing wrong please?

<https://goo.gl/HxS5xN>

Narwin - November 20, 2018, 3:17 pm

if you don't know how to install it then check the Method #1 Installation [here](#).

sgames - November 21, 2018, 7:23 am

(Nov 20, 2018 04:17 PM)Narwin Wrote: [\[CITE\]](#) if you don't know how to install it then check the Method #1

Yep, you are right. Sorry. Great framework. Do you keep it up to date, or its finish?

Narwin - November 21, 2018, 1:02 pm

(Nov 21, 2018 08:23 AM)sgames Wrote: [\[CITE\]](#) Yep, you are right. Sorry. Great framework. Do you keep it up to date, or its finish?

it's been long ago since I made the last change, I don't think I make new changes soon.

sgames - November 21, 2018, 1:12 pm

(Nov 21, 2018 02:02 PM)Narwin Wrote: [\[CITE\]](#) it's been long ago since I made the last change, I don't think I make new changes soon.

oh :(it contains few bugs ... and i cannot find something better than your framework

Narwin - November 21, 2018, 2:09 pm

state any bugs or issues in issues list, I take look at any issues if there will be and try to fix them.

GKL.HF - November 21, 2018, 2:51 pm

Very nice share, great looking too!

Thanks very much for the share Narwin!

Deikoon - November 25, 2018, 12:28 pm

Why people still use forms with C# is beyond me.

sgames - November 26, 2018, 12:01 am

(Nov 25, 2018 01:28 PM)Deikoon Wrote: [\[CITE\]](#) Why people still use forms with C# is beyond me.
Why not ?

(Nov 21, 2018 03:09 PM)Narwin Wrote: [\[CITE\]](#) state any bugs or issues in issues list, I take look at any issues if there will be and try to fix them.

Hi, where i can found issue list ? github, here, or PM ?

Narwin - November 26, 2018, 4:28 am

thanks a lot. if you can fix some errors, i be glad to send you little "\$ thanks" :)
This framework is important for me. I use it in my software for RC Aircraft competitions that will be used on World Cup next year, so it must be perfect.

sgames - March 30, 2019, 3:21 pm

Narwin, are you alive ? i have only one question about your framework.

on all computers i have same issue

Název události problému: CLR20r3

Podpis problému 01: SORG AIR.exe

Can you help me ?

Bro, I saw the issues you stated on Github repo and I work on them soon it's just that these days I'm struggling in some of my problems in real life, whenever I'm set I work on them be sure.

and about your question can you show me the pic of your errors?

Best Regards

adenfr - April 7, 2019, 9:48 am

i have 1504 error when i open your project bro why they showing this errors
i try to change forcolor for messegbox to white color

```
else if (icon == MessageBoxIcon.None || icon == MessageBoxIcon.Asterisk || icon ==
MessageBoxIcon.Hand)
else if (icon == MessageBoxIcon.Exclamation || icon == MessageBoxIcon.Warning)
else if (icon == MessageBoxIcon.Question)
```

any helep why this errors shows before build !!!

Narwin - April 7, 2019, 4:57 pm

any helep why this errors shows before build !!!

the colors of message box are limited to the dialog type, as you can see [here](#)

-PUBG- - April 21, 2019, 8:18 am

How do we use the Dark Theme, The light theme kinda hurts my eyes, Lol

Joel - April 23, 2019, 8:09 pm

I absolutely love MetroUI. Thanks for this post.

Geekie - April 23, 2019, 11:41 pm

Could I suggest something. A metro listview, with image support and change the selection colors

sgames - April 28, 2019, 3:30 am

Hi Narvin.

At first, thanks for your commit on github. Your work are awesome, and i am glad that i use your framework !

all bugs i have posted on github.

thanks for your work, and if i can support you (in all ways), tell me how please via PM or ales@sgames.cz

Narwin - April 29, 2019, 4:56 pm

(Apr 21, 2019 08:18 AM)RapidHost™ Wrote: [\[CITE\]](#) How do we use the Dark Theme, The light theme kinda hurts my eyes, Lol

You have to add StyleManager component to your desired form then change it's style to dark.

Thanks for all the issues you stated even though I was far from programming for more than a year and I lost my previous laptop for 4 months and it took me time to be able to afford a new one, I was not even remembered what even I wrote after such a long time, still most of the issues have been fixed and I'm trying to resolve the left ones once I got enough time to work on it.

Thanks in advance.

iabel - April 13, 2020, 3:22 pm

Where can I find the orange theme?

Arbit3r - April 14, 2020, 12:52 am

(Apr 13, 2020 03:22 PM)iabel Wrote: [\[CITE\]](#) Where can I find the orange theme?
you can customise this however you want
