Thread: [Ebooks with Video Guidance and step by step execution. \[YOUR OPINION NEEDED\]](#)

Camf ? - November 17, 2017, 1:18 pm

Hey HF ?

I have been around for a while now, and learned alot from HF aswell as seen where it has been going as of the past couple/few years ?

I want to give back, but also make it worth my time. I know that sounds selfish but we are all selfish to an extent and must be to survive :)

I'm taking time out of my day to create detailed content I think a small fee wouldn't be asking to much. Now this is where I am looking for opinons on filling the market place with Ebooks and Courses that are on hands video step by step setup + full support methods. These methods would range through all areas including Money making, ewhoring, like hacks, and just about anything you can think of :)

As I ask people who agree with this to support the idea and implement it in their own sales within the community! Only together can we keep HF great .

So now for the voting, Would you personally give ebooks a try more often if they were more like on hands step by step courses through video and audio .

Some people and I respect this 100%, just HATE ebooks @ HF and wish they would be gone all together.

for those people I would like to reach out saying I am not eliminating offering free content to HF I am just talking about more advanced methods, that take time and detail :) ?

Let me know guys! please don't let this thread just die, I really want to get people thinking and get their ideas going. IF you have any negative comments please leave them freely, but respectfully :)

Where are my OGs? <3 ?

I have bought 8 ebooks some including video guidance and step by step

No matter video or support. the peson selling the ebook does not give a shit about you and are only doing it for the \$.

Videos i have experienced have been put together quick with no thoughts put into it, just so they can get more sales saying they have video guidance.

Only have experienced 1-2 good ebooks sellers

Maybe, if you provide content first then money
someone like me would be interested in what you have to offer
