A: Yes, and no, if you get an Upgrade you can but cracked Accounts you cannot.

A: Nothing! I will send you a link and give you the information to input! (Sometimes I may ask for

your login Info, please make sure it is me you're dealing with)

Q: How long do upgrades last?

A: It can last a week, or it can last years. My warranty will cover 1 year (12 months) of your accounts Premium, if it no longer has Premium within that timeframe I will re-upgrade it for 100% free!

Explanation [\(Click to View\)](#)

is it true that you can only add a Spotify account to a family plan twice only?

Yes, and Thank you for bringing this to the table.

I along with other sellers am able to upgrade only twice on the same account - with that being said.

All my current customers with my 12 month warranty, I will be willing to create a new account (personalized if requested) and transfer 100% of your Playlists, songs, stations, artists, albums, and even podcasts & videos for free until your warranty ends.

(Please understand, with this in mind I will be backed up a lot. It will take time, but it will be done depending on amount of Music/Podcasts/Videos are followed.)

*Those who buy VIP are excluded.

Now, new customers; you will have 12 months of warranty just like my current customers but, I will not create the accounts for you - I'll gladly upgrade them for you for free while on warranty.

I understand how many may feel currently, I'm sorry for this inconvenience.

OP gave me a vouch copy, and I must say he was very friendly and helped me within minutes. If you're looking for a Spotify upgrade I can recommend this user.

Can vouch for OP, Got the account, It requires you using your mind to get the account, but if you have a brain at all, you will be able to set the account up. Amazing price, and HQ seller with a HQ account that works well. Do not hesitate to buy due to worrying about quality.
They work!
