I believe if you get a device ban, you can change your device info, and be able to start a new profile.

I may be mistaking, but I believe this is possible.

Also, this ban is not only Snapchat, many (if not all) apps can do this.

Why fuck Snapchat lol? If you're breaking their ToS, which seems ABSURDLY hard to do, then it's your own damn fault.

i got device banned as ive made like 5+ accounts that have all been banned and so i couldn't make another one as it instantly got deleted after. i just made a new account on MEmu then continued on my phone.
