Some methods I've already soon but the second one could make you a lot

Grammar/English - 9/10

Uniqueness of methods - 6/10 the second I've never sssn and looks good the rest are good methods that still work though

Money making - 9/10 anything that you do to make money will require work and these ones do not require too much work

The methods in the ebook are pretty straight forward and easy to follow I couldn't say it will make you 500\$ a day but you can certainly earn some cash on the side. Methods are whitehat and if lots of time is put into them and they're developed to a professional level one can certainly make a lot in a day especially from the last method which I have already seen in other ebooks.

Got the vouch copy, here is my review:

Ebook very simple and with many methods to do, some of them will work better than others but with effort you can earn decent money. Methods are whitehat and can be done even by a child! I see a good potential but honestly not 500\$ per day.

Overall this eBook can bring good cash and you can start earning in less than 1-2 days if you put effort!

Good luck!
