Thread: [If you had a time machine...?](#)

If you had a time machine where would you go? What would you do? Who would you want to meet?

I would go to the 80's and just experience how life was like back then. The music, television, etc... Probably also the early 2000's. i feel like that'd be interesting

I would probably also want to meet Michael Jackson in his prime. that would be one crazy experience.

The 80s was utter shit, glad it's long gone.

Back to 200x, sell my left nut and invest in Bitcoins when they were worth a few cents.

I would definitely go back to the 80s as well. That's where a lot of good music came from and where original video games and movies started. Life seemed so nice back then.

Cagey - November 18, 2017, 6:32 pm

2008 and buy every bitcoin I can. That is all.

movies have been around a lot longer than the 80s lol and video games sort of came out in the 70s but Arcades were a huge hit in the 80s. Id definitely want to travel back to the 80s that would be a cool time to visit so much music came out of that decade

I wouldn't mind having a conversation with Jack The Ripper. I think his psyche would be interesting to dive into.

Hustla - November 18, 2017, 7:58 pm

I'm a big fan of the 70's, 80's and 90's. I'd make myself a teenager in each era and experience it all.

anthonybrown - November 19, 2017, 11:49 am

I would go back to buy all the bitcoin I possibly could

booger99 - November 19, 2017, 2:27 pm

Yeah, I do wish to see how the blue layout will be when it's brought back though.

CelestialHood - November 19, 2017, 2:50 pm

I would keep going back to when I was about 20 years old. That was just the best time of my life.
