Hey mate haha, I know it's tough deciding on an eBook these days considering the corrupt low quality market. If you have any questions please don't hesitate to add my on skype or any other support line. I can try and clear some things up so you can be more confident about your purchase. We actually just had our first customer purchase and he seems quite impressed already!

FRI?DBAO™ - November 21, 2017, 6:35 pm

Went ahead and contacted Rysko offering to swap methods and he was nice enough to give let me check this out. I've been through a lot of methods and I can seriously say that this is one of those gems you find that produce hard solid results. The work looks really easy and the setup was super easy. Payments seem to come in daily (starting day 1) and rysko is super responsive and patient. Just finishing up setup now looking forward to posting some results!

Its been about a day, i haven't gotten the product yet, so be prepared to wait, tbh reason why most probs the high demand.

You are exactly right bro, the booming word and customer success has everyone from all ends coming to check this product out and it has been straining me like crazy. I am so sorry to you and everyone else who has been having to wait, I am now almost finished with exams and am in the midst of hiring support agents (most likely some of my current successful customers) who will be designated to providing services and support on my behalf.

Big updates coming for The Hustler's Blueprint - Love you all thanks for make this such a great project!

Don't buy. Shitty method, broken links in the pdf, claims for the methods to be whitehat only yet there are two methods, one being whitehat and one greyhat. The method isn't even whitehat and it breaks multiple ToS. Refuses to refund even though he claims [100% SUCESS OR REFUND] (TOS is hidden in the thread, you can only see it if you're looking for it. You have to wait 30 days before he'll refund you)

To top that off, this isn't even an autopilot method and in no way does it only take 5-10 minutes a day, it requires constant upkeep.

My reputation is currently at 1, if it goes negative it's because I called him out on this.

Thank you for this legit feedback. I've been looking for actual good or bad feedback before buying this product. All I kept seeing was fake feedback, all the same generic positive feedbacks that look not genuine. There didn't seem to be many actual product used comments like yours, will see what OP has to say to this, thanks again
