Vice City, im fine with it being modern day, but go big like GTA V, replica of Miami and surrounding areas. And bring back a killer soundtrack with a great 80s+synthwave station ?

I hope for an entirely new location. New York/Liberty City is my least favorite. Miami/Vice City is cool. I'm a Los Angeles native though so Los Santos was cool at first.

I think Vegas would be a dope location. Or perhaps Philly.
