[BUY IT NOW!!](#)

4/6 vouch copies have been given to GuardianAngel, Kashira, Theocritus and ???d???. Waiting on their input.

Theocritus Wrote:Received a vouch copy of the PLUS version from OP yesterday, here are my thoughts.

So first off, i haven't been ewhoring much the last 6 months or so, though i do have a decent amount of knowledge about it and have experience in it as well.

So this Ebook with all its contents at first glance may not look like much, but it has a surprising amount of content as well as well written guides.

In this you will find a few ewhore packs to use on your journey, both including a variety of verification pics as well as many other pics to use from start to finish to make a sale. Some videos are also included which is of course always good. Another note is that i have not ever seen these girls in other packs, so for me at least they are new and fresh.

With the packs you also get good information and a guide about how you could proceed with your acting and such to make a sale. Surprising amount of detail in it as well.

Another thing i would very much like to point out is that this Ebook thankfully has very good organization, with folders and all being properly set up, which is something that is far too often overlooked. So cudos for that ?

Certain programs are also included meaning you don't have to go searching for them yourself, you can just find the files there and install right away.

As a last nice touch there are a few documents with links to many free packs here on HF, as well as a long list of potential traffic sources.

Overall this is far from the worst value Ebook etc i have seen, with many good solid points about it. To me there is nothing glaringly negative about this Ebook and the Price does to me also seem fair, as even if you are a complete e-whore noob you should at least be able to make a single sale to make your money back with relative ease.

Easy to read, easy to understand for the most part, and very well organized. If you are new to e-whoring especially, i think you will find this to be a very good value Ebook for you ?

I had 6 copies for 6 well known members of the e-whore section. I'm not just handing them out at random. Sorry.

I've been E-Whoring on other forums that are now dead since early this year. It shouldn't be a surprise that I have an eBook.
