Nice thread design! Any vouch copy available by any chance?

Good luck with sales :)

-

Got the vouch copy and testing the methods, they look very promising and eBook and bonuses are very nice! Will report back when I make some \$\$.

-

Huge vouch for the OP! I started using one of his bonus methods and went to sleep, when I woke up I saw my first sale!

I could have earned much more, but I never used eBay before so I was limited. OP was very inspirational and helpful, he helped me with my stupid questions. With his eBook and methods you can literally earn overnight! Just put 1-2 hours to set up the methods and you're ready to earn almost autopilot!

If you put all methods together, and you're not lazy you could earn hundreds per day with no problems. Also the ebook is written very well, easy to understand and with a nice layout.

Thank you!

I received a vouch copy of this ebook and will be editing this post with my review once I have time to read it.

UPDATE:

I have read a lot of ebooks before and this is a very interesting one. Very easy to make money if you have an eBay account and a few dollars to spare for an initial investment. I was able to set up the method in less than 20 minutes and got 2 sales within the first day.

I would recommend anyone who is looking to make a decent amount of cash buy this. It's also a great way to boost your eBay seller ratings too.

For anyone that already has this book, you should try purchasing fake "item watches" as it will boost your item to the top of the search results.

if you giving away a vouch copy il take one too

Also selling on sites is not my thing but i look forward to do a honest review :)

EDIT: Got my copy and I must say this is method works for sure.

There are different methods included and easy money can be earned if you put some efforts.
I haven't tried this method but I hope anyone can easily earn some with some effort and he also provides some additional resources too :)
Good luck with the future sales +1 :)

Holy shit, That was quick! Just purchased the method and OP helped me with the setup. Once everything I was setup, I casually checked after an hour and already got 3 sales, Updating with a more detailed review after I setup the other methods.

PS: I'll leave a short and honest review once i've received and tried to implement the methods provided in the ebook.

Edit:

So here is my honest review:

1. The method OP provides in his ebook is really simple and effective. You will most likely be able to make money off of it.
2. Setup is easy and can probably be done within an hour.
3. It is relatively unique, but nothing i didn't know about.
4. However, OP only provides a single method which is focused on a really specific niche. Thus competition is likely to increase over time, whereas your profit margins will probably decrease.

In the end it's up to you to decide whether it's worth a shot or not.

Best regards,

Vox
