Thread: [Bombaclut & Qtum Fake vouchers/possibly multi UID = 5757341 & 1359715](#)

MarSy - November 23, 2017, 4:43 pm

First of all, just like every other ebook on here, he claims that his method is "private", "HQ" and makes you "\$300/day". Don't think it's worth discussing the fact that a method that makes him \$300 a day is being sold for \$35 and he sells the ebook + the resell rights for only \$100.

<https://hackforums.net/showthread.php?tid=5757341>

He starts bashing the other guy for pointing out a mistake, so i decided to go over this "promising & HQ" ebook's sales thread, and I came across a few sketchy vouchers and posts.

This person left 5 replies on his thread, on the day he registered. (Worth mentioning he got banned 2 days later.)

Clearly fake vouchers on his thread to bump his thread.

Clearly disappointed with "their method". Sounds like I was right! It's probably a refined public method.

Another fake vouch, leaving a vouch on both threads posted by their other partner. Also banned.

<https://hackforums.net/showthread.php?ti...id56208464>

And another person unhappy with the method who chargedback.

And then finally he decided to not even comment on my findings

This is why you don't buy ebooks on here

You hoping for some reputation or an award? No one gives a shit dude.

I don't sell bullshit, and just because there are a few negative reviews doesn't mean it's all a lie.

Also, you don't have any proof they are fake vouchers.

You're just triggered. Go lay your head down.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

Oh now i don't have the right to think that you might be a multi? Or your partner is one? Whaf comment are you talking about here?

Also, you dismissed all of my points.

Explain the accounts with 5-15 posts and 30 mins of online time posting vouches on your threads and a few of your close buddies' threads
