Thread: [Just lost \\$15 on PrimeDice :/](#)

FryPan - November 24, 2017, 10:28 am

I've been depressed all day long, how the fuck can I deal with this?

This is the first time I've made a bet... :/ :(

\$ZEUS - November 24, 2017, 11:38 am

How can you deal with it?

Don't gamble.

If you can't handle losing \$15 then this may not be for you.. especially if it's bummed you out all day. Next time, try something a bit more gratifying. Like maybe a large pepperoni pizza. Can't go wrong with that! ?

gambling is bad for you if you can handle the loss, i lost over 100\$ few months ago, and now i never go near it, :) stay as far away as you can.

Damn man you lost some pocket change, must suck for you.

At least you learned this lesson the cheap way.

If you dare to go back once again some advice is don't get greedy ;)

vaiperboy - December 9, 2017, 12:18 pm

your 15\$ would be 27\$ now if you just didn't gamble those away, imagine all the good things you could've bought, shame....

DarKr0x - December 9, 2017, 12:39 pm

Omg people crying for 15\$.

You don't know how it feels to lose 2k\$ in a single day -_-

Speedforyou - December 9, 2017, 10:22 pm
