Thread: [How to win any PayPal chargeback/dispute \(CAN BE BUYER/SELLER\)](#)

Terio - November 25, 2017, 6:39 pm

I've noticed that someone was selling their own method to winning disputes as long as you were the buyer on PayPal, so I wanted to share my method that's been working since 2014.

It's rather simple with no prior investments needed. This method helps me prevent scammers who chargeback friends and family payments on me.

This method works on any transaction, regardless of whether or not it was a friends and family chargeback.

Price

I'm not selling this exclusively. You are able to pay via PayPal or Bitcoin.

\$20 United States Dollar per copy. I'm doing one vouch copy for a very, very reputable member.

Contact

PM me with your payment option.

Have a good day, ?

So do you have any actual proof that this works? Or should we just trust you and pay you 20 bucks?

Someone is going to buy your method for \$20. And then use your own method against you. Welcome to hackforums

Good point, I am now offering a vouch copy for a reputable member. If you'd like to see screenshots of past disputes I've won message me.

For a vouch copy you should let a buyer use the method against you ?

joking, glws.

may buy as receiving G&S is much easier than F&F, want to protect myself.

I know a couple of ways to do this. I'm down to leave a vouch if you'd like me to review it.

I have won a lot of disputes as well, but I wouldn't call it 'win any' It's more like, write a good text and make up a bullshit history conversations etc.. and u win

Do you have any vouch copies available? (Not vouch begging)

CapsBruh - November 26, 2017, 8:05 pm

Anyone confirm this works? I would be using it in situations where I'm in the right anyways lol.

SpecterCraze - November 26, 2017, 8:15 pm

this is weird probably the one who will pay you for this will use this against you.
oh well my 2 cents.
