Alright. Trying to get my vin without going outside. Its like 20F outside and 2AM.

Update: Just reviewed the carfax for my vehicle and I must say, holy fuck. I wasn't even told about the fact my vehicle was stolen before whenever I leased it. Also, multiple service issues I've had since leasing were also issues for the original owner as well.

I will say this, for someone thats never seen or heard any of this information regarding the vehicle, I will definitely be returning to OP for more carfax in the future. In just a few months I plan on purchasing another used vehicle and this information is gonna help me a huge amount.

I didn't see this mentioned, but what's the lifetime of each request before they expire or otherwise become invalid?

To put another way, if I bought 5 requests from you now, how much time would I have to use them before they're no longer usable?

Also, could someone please confirm whether any of these checks provide the vehicle colour??

You have 1 year from purchase.

No color info is provided.

Contract started and added on telegram. The pay now link in the contract is not working btw

Leaving a vouch on this. I am in Canada and ordered a car fax. It was instant, it was accurate.

Format was a little different it was in the USA carfax format but still had the same info and it checked out correct. As someone who buys a lot of cars I will be a repeat customer for sure.

Do you need the VIN after payment or do I just get re-directed to the site where I type it in myself?

You will receive a url in which you enter the vin directly.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

Can you only pull via VIN? How about license plate? Can any of the reports owner information, address, etc.?
