Since we all know how hard it is, to grow on Instagram we want to create a small but nice Instagram Engagement Group. If you are in a Funny content or Meme Niche, message me in private.

We will add you to this Engagement Group on Instagram!

What we are doing there?

We are like and comment on daily basis, on all our Group Users posts.

Means, If a person post a new Picture he have to post into the engagement Group:

"Hey, Ill posted a new picture" + link "returning by comments and likes".

If he done that (all others have to like it and he himself need to like the others too!)

he/we got some nice comments and good Engagement on our Pictures!

Requirements to join us:

|> 1k+ Followers

|> DAILY activity in our group

|> You have to be friendly

|> Like and comment all others daily!

Members in this Group at the Moment:

@memeigga | 119k Followers (Niche: Memes)

Just hit me up in private or via Kik: upraised

with your Instagram Account Link or Name and we check if you

can join us! :)
