write me a pm mate.

Millimeter Peter - November 29, 2017, 12:07 pm

Great price for a product that can save you thousands of dollars in a chargeback.

I loved reading your e-book since it wasn't static, you had pictures and you made me want to read it all.

This guide requires you to be able to send a box/mail but that's really much it as for requirements. Overall, this is my honest opinion and this guide is definitely worth the \$10.

Thx for your vouch. Last voucher left!

ryan? - November 29, 2017, 1:15 pm

Had the opportunity to look over this guide and can honestly say it's well worth the \$10 it's being sold for. It's written very thouroughly, including many pictures and step-by-step guides on what to do.

It's organized extremely well being separated out into different sections to outline the whole process from start to finish. While this does require some work, I can honestly see this being useful and helpful in winning a chargeback and would definitely give this guide my vouch.
