Thread: [RSPS acc hijack service - Cheap - Get rich - ANY RSPS!](#)

She Lied - November 30, 2017, 5:03 am

I will give you access to accounts on any rsps, any accounts you give me - you may have to provide more usernames but you will receive accounts so don't worry about losing profit etc, Cheapest service, richest rewards.

Requirements:

Account list of players you want to hijack,
A Server with low account security (account pins cannot be bypassed, unless you know them already!)

Pricing:

Servers without account pins:

10 accounts = \$5 + 20% split to me, example: 1b loot, i get 200m

Servers with account pins/high security (takes longer):

10 accounts = \$10 + 20% split to me, (THESE SERVERS CAN BE VERY PROFITABLE FOR RWT)

other pricing can be discussed, deals will be made, im a generous guy.

- THIS ALSO WORKS FOR REAL OSRS ACCOUNTS, JUST TAKES LONGER, IF YOU KNOW ANY USERNAMES/EMAILS OF ACCOUNTS WE CAN WORK SOMETHING OUT ;)

things you can do:

(Zonica just released, hacked official rank 3 account, EZPZ)

(yes i'm an rspunit scrub)

Cool service. Curious on your osrs expertise, you can get into any real osrs account minus the pin?

it really depends, previously with other methods i could get you into any specific account, but with this method there's no guarantee of finding every user you want easily and simply, although i will stick with the user until they have 10 accounts user/email/login information's

but with OSRS i'll probably sell access for each account individually as the chance of getting in is lower,

I can vouch for OP.

Although I am inactive in the bug abuse community currently, I have been a member of RSPUnit since 2013. I am still an admin on the RSPUnit forum and I am aware of who still bug abusing within the community.

I've bug abused with 'She Lied' several times in the past; he knows what he is doing.

I cook, let me know if you want any help with a particular server for bug abusing. I'll come out of retirement to go ham on one sometime.

Edit: I changed your usergroup on the forum btw.

Might want to check the rules, not sure if this allowed considering its "jacking" accounts or well "Stealing".

Just a heads up.

All servers including dawntained if you use a rotating IP

I can no longer provide services for the server INDOVA - The staff there are very kind & friendly,

and have made an agreement with me to no longer provide a service to hijack accounts on there server.

She Lied - *August 30, 2018, 2:18 pm*

Bump! service is currently free, 1 account hacked per person, ONLY servers that don't have 2FA or crazy protection - have new updated vpn and undetected methods so you'll be safe.

She Lied - *September 1, 2018, 8:13 am*

Bump, online

pm me on Hf or add my discord to discuss

segpa123 - *October 15, 2018, 9:42 pm*

Hey how can i contact you

She Lied - *January 22, 2019, 2:54 pm*

Bump, pricing may be A BIT higher as this is still hard to do.
discord is Kier#3265
