Hey,

I've got a method that gives you between £10-20 FOR FREE FOR A SIMPLE TASK

Open only to UK members as far as I'm aware.

Withdrawal to PayPal.

Payment takes around 12-24 hours.

Let me know

- You need to deposit £10 into a betting app, however, the free money does not go to your betting account, it's something else.
- You can put those £10 on some low odd game like 1.03 and essentially not lose anything
- If you DO lose then you will still gain £10
- If you don't lose you will gain £20
- 18 or over
