Thread: [Can you explain Bitcoin miners?](#)

denisken1 - December 1, 2017, 2:02 pm

If I buy this

<https://www.ebay.co.uk/itm/322914881110?euid=dcb4f1fadf4b4210a493ea87fe368f3f&bu=44772976533&cp=1&sojTags=bu=bu>

Will I get 150k monthly?

Is that truth? or how does it work?

God - December 1, 2017, 2:09 pm

why would anyone sell you something that gives you 150k monthly for 2k
wrong section too

DealMaker - December 1, 2017, 2:11 pm

IF you mine bitcoin block you could get few thousands \$\$\$\$ but its hard to mine solo a block.

denisken1 - December 1, 2017, 2:13 pm

If I mine other block what would be my earning then?

FaberCastell - December 1, 2017, 5:02 pm

You will get 150k monthly if you mine some bitcoins and keep them for years. Might as well just buy them though :)

You can check the profitability calculator there;

<https://www.nicehash.com/profitability-calculator>

Niklas Kronwall - December 1, 2017, 5:29 pm

you would be better off investing instead. Those ant miners take a lot in electricity even more than the gpu mining. You really should do more research OP bitcoin is incredibly hard to mine now because of the difficulty levels.
