Sales thread; <https://hackforums.net/showthread.php?tid=5761343>

He gave me a "vouch" copy and I looked through it and noticed that it was something that I already knew of. Upon scrolling to the bottom in huge watermarked text is the name "Xbugitox" and a quick Google search of you will bring you to this thread;

<https://hackforums.net/showthread.php?tid=5078749> which is the same as what he is selling

I checked out the proof of earnings pics on that thread and this picture; <https://imgur.com/R2LT4UT> is the exact picture he uses in the eBook.

If Staff need more proof I can show them the ebook he gave me

?

EDIT: Here's a pic of his thread because I bet he will try to change it; <http://prntscr.com/hhz3om>
