Yeezy Powerphase (Grey)

I am doing cart services for the Yeezy Powerphase dropping on December 9th. A carting service is basically me passing the splash page and getting them in the cart for you, and then you can checkout the shoe with your payment method to your address.

Price of each cart will be: \$20.

If you are interested, please post here saying you are interested, and then PM me letting me know how many pairs you want carted and what sizes.

Thank you

Regards, KingMetro

Thank you, yeah, obviously not as hyped as regular yeezys, but people can resell these for around \$250 and make about \$100 per pair. Quick profits.

Yep, cheap carts. Get it while it's cheap and take advantage of it. Trying to build me carting service reputation.

Still doing this service, super super cheap carts!
