Thread: [Fake scam reports?](#)

Alright, so I am aware that HF Staff do not get involved in deal disputes.

However, I try pretty hard to keep my reputation clean around here. I try to keep all marketplace deals legitimate and help others do the same. I've done big transactions here, over 1k+ each and never had a problem, even with Minimalist as MM.

However, someone's made a scam report against me, for giving away a free PUBG cheat, and he thinks it's his PUBG cheat and says I scammed him for 2,000\$ (since 44 people posted on the thread, he added 6 people on top of it, then did $40\$ \times 50 = 2000\$$)

The whole thing is false from the beginning, but I've messaged him multiple times to resolve it and show him it's not his cheat, he continuously ignores my PM's and won't resolve a false scam report.

It's pretty upsetting to me because I plan to do a lot in this community and things like that will hold me back.

Is there anything that can be done? I don't want to bother Omni via PM because I'm sure he's way too busy for stuff like this.

Here's the thread:

P.S: I have no idea what sparked the thread or why he hates me, it was completely random and out of nowhere. He won't let me resolve it.

Dealt with. It's basically invalid since you technically didn't make a deal with the member.
