Thread: [Question for Rocketr sellers](#)

Payload - December 5, 2017, 3:44 pm

Am I trippin' or does Rocketr beep for every sale you make?

Artemis Fowl - December 5, 2017, 3:45 pm

I haven't heard the beep personally but I'm not around my computer most of the time either. I know it'll send you a push notification if you let it, though, so I wouldn't be surprised if it made a sound as well.

Ah, I don't have the push notifications enabled but I think i'm hearing a beep when sales come in.

It's pretty cool, just wanted to make sure i'm not crazy.

There's a beep/ding on sale if you have notifications enabled

Disabled the notification sound so I don't receive the noise.

I swear I have no notifications enabled and still hear the ding, at least I know it's Rocketr now.
