Thread: [Looking for some to make "Explainer video" **PAYING GOOD**](#)

Casian - December 7, 2017, 3:31 pm

I have a cryptocurrency project that I'm launching that I need a professional looking explainer video made. THE SCRIPT IS ALREADY WRITTEN AND RECORDED so as soon as you prove to me that you are the right man for the job, we can get started right away. You will have to complete the video within 2.5 weeks of assignment.

Preferred Requirements:

- At least 2 videos that you have made in the past
- At least 1 video that is an explainer video/informational video that you have made

Do not bother PMing me if:

- You have nothing in your portfolio
- You have open scam reports/recent scam reputation
- You do not have any intention of completing the video

Minimum pay: \$50 BTC

Maximum pay: \$200 BTC

Pay will be determined by final product

Did you really not read the all caps bolded sentence in which I said the script is already written and recorded?

How long is it expected to be? Judging from your pre-recorded audio.
