Thread: [Ethereum Transaction Not Appearing or Still Pending? Read here how to fix it!](#)

Kill Joy - December 8, 2017, 1:52 pm

Alright, so many of you are having issues getting your Ethereum transactions confirmed. Bitcoin users go [here](#).

Step One

Make sure your transaction is not confirmed by checking here:

<https://www.myetherwallet.com/#check-tx-status>

We can see the pending transaction here:

Step Two

If you don't already use MEW, import your private key into MEW. Official website:

<https://www.myetherwallet.com>

Make sure you are on the send Ether & Tokens Tab

Step Three

Once logged in, view recommended Gwei and Gas limits here: <https://ethgasstation.info/>

We see the recommended price here:

Now go back to MEW and change the gas price to the recommended amount

Step Four

Copy and paste your own wallet address (found on the right side. It's hard to miss)

Paste your address into the appropriate field and set the amount of Ether to send to 0. *Please note you will still be paying Ether gas prices.

Click Generate Transaction then click Send Transaction. You will be prompted one last time before

sending the transaction. Click yes.

Click verify transaction. A new tab will open it. It will say the transaction hash is not found. Wait 30 seconds then refresh. You may have to wait a little longer if you chose a more median gas price.

You can now see we have a confirmed transaction that was sent to ourselves! This clears the previous pending transaction that you had initiated.

Step Five

Go ahead and send a new transaction with the higher Gwei amount.

I hope this helps. :) Anyone asking for a technical explanation, go ahead and if there is interest I will create a new informational thread.

Thank you for this nice tutorial KJ, It will come handy.

Windows - December 8, 2017, 2:51 pm

Thanks for the tutorial! I was looking for something like this earlier.

Eagle 95 - December 8, 2017, 11:53 pm

Outstanding tutorial as always, keep on going!

Yin Yang - December 9, 2017, 1:16 am

Nice tutorial KJ. Every time I have a tx question, I always go to you

James Burnham - December 9, 2017, 1:22 am

Thanks for that tutorial. Works perfectly.

Kill Joy - December 9, 2017, 6:29 am

(Dec 9, 2017 02:22 AM)? Mr. Burnham ? Wrote: [CITE](#) Thanks for that tutorial. Works perfectly. Glad to see you got your award now.

Thanks everyone! Happy to help.

Gas limits have been increased which has been a huge help for most transactions now. If you changed the gwei on on MEW, make sure you lower it before you send a new transaction.
