Thread: [\[resolved\] SCAMMED BY RYSKO \\$38.99 UID 3001152 BOUGHT EBOOK NEVER DELIVERED NO REFUND](#)

theFxTradeMan - December 8, 2017, 6:21 pm

So, Rysko was selling his ebook:

<https://hackforums.net/showthread.php?tid=5756387&pid=56335489#pid56335489>

I purchased it through Rocketr and once purchased, I received a compressed file with only a READ ME file. You open the read me and this is the content:

Code Thank you for purchasing The Hustler's Blueprint - You are one step away from financial success!

Please post on the thread or email me with the following information (You can censor parts eg. org***di**@gmail.com):

Email:

Package:

Order #:

Thread: <https://hackforums.net/showthread.php?tid=5756387>

Email: rysko.product@gmail.com

I followed instructions here:

<https://hackforums.net/showthread.php?tid=5756387&pid=56334260#pid56334260>

Upon hours of waiting, I reached out to several members who purchased before me to ask how long it took, they replied that they still have not received their eBook, this is when I requested a refund.

Rysko then proceeds to tell me that I will not be receiving a refund, that it's against terms of service. I said that for me to agree to terms of service, there needed to be something in the thread. He then edits his thread with the TOS: (he hides it in the very bottom right hand corner of the post, very shady)

- Code 1. Sales trashing will automatically void your support, refund and future updates
2. You must wait 30 days before attempting to claim your refund policy
3. Opening a chargeback will void your support and refund + a scam report will be made
4. By purchasing, you undoubtedly agree to the terms of service.
5. Proof might be asked for when attempting to claim a refund, you must comply.

After that, I went ahead and created a chargeback with all evidence, then this mother fucker decided to [create a scam report on me](#) because I created a chargeback because no product was received.

So.. he stole my money, created a deal dispute on me, then put out all my information (name and address) on the deal dispute. So please.. deal with caution.

I'll update this thread on the history of the chargeback.

Please deal with caution. I wouldn't advise anyone to deal with this memeber. I believe he's young

by reading most of his responses.

EDIT: resolved. title edit.

This user has already opened a chargeback, this deal dispute is invalid.

You can find the report to the chargeback (made before this fake dispute) right here:

No ebook was received by me. My dispute is 100% valid.

can you both stop opening threads...

You already filed a chargeback, who gives a shit.

stop asking for a refund, paypal will give it back for your chargeback

its not like spamming dispute threads is going to do anything...

its in the FAQ, its not banable, and HF has nothing to do with any transaction.

Man, it's just policy. In any kind of major disputes, there needs to be records from both parties.. I'm sure it's annoying to keep seeing this or that thread, but I just need record of everything.

Completely understand. :) Try to keep it to 1 thread tho.

This one looks alot neater :P lets keep it that way

We'll see about that, a few members opened a chargeback after purchasing my product(s) and I won all of them with the help of Rocketr/Selly. OP has to play this one really smart if he wantes to get his money back with PayPal.
