Thread: [How to upgrade someone with 3P1C](#)

Mr. Reviewer - December 9, 2017, 7:04 am

I am trying to upgrade a buyer of one of my sales threads with 3P1C but I cannot, is it in any way possible? I managed to upgrade someone with L33T but 3P1C doesn't seem to have the option?

zFacetious - December 9, 2017, 7:23 am

I think it is because you don't have 3P1C, I didn't see the option to upgrade someone to 3P1C until I got 3P1C than it says "You appear to already be in the group. Enter the UID of the user for the gifted upgrade" So I think you need to have it before you can gift it

What you say is true. You need to have the upgrade yourself in order to gift it.

You will either need to buy the upgrade yourself or get someone who already has it to gift it to them on your behalf.

Just use Ethereum instead and avoid the ridiculous fees.

I do but I have a lot more in BTC than I do in ETH so I have to somehow mix it up

You can just get someone with 3P1C who you trust, to open the coinpayments payment and then you send the coin to the wallet they get off of CoinPayments.

You can buy 3P1C for someone without having it if my memory serves me correct.

I just told the person to go through the steps until they got to the part where it asked what coin. Told them to send me the LTC address it said to send to. Sent it, they got upgraded. I went on my way.

Is there an award im missing?
