Thread: [Personal trainer services \[Programs\] \[Meal plans\] \[Licensed personal trainer IRL\]](#)

**DanketyDank** - December 9, 2017, 8:55 am

Hey all!

I am licensed personal trainer in real life and now I am also offering my services here!

I am willing to give you unique program, meal plan, whatever you need and whatever your goal is I will build it for you. I am not going to sell same program/meal plan to multiple people as I know from the work I have done with my IRL clients its not gonna work. Everyone needs unique workout program and meal plan.

I have done strength, bodybuilding (my personal love) and of course fat loss programs and even programs to help you with certain sport (bicycling, whatever!)

Each workout program/meal plan will be built just for you!

Prices

-50e workout plan for YOUR goals (free changes and tailoring the program as you progress!)

-40e Meal plan for YOUR goals

-Also free support/help/coaching via Skype or PM's as long as you keep pushing that workout!

-PayPal/BTC/Skrill

I am thinking of giving one or two workout programs out for FREE if you promise to make a review and if you actually will be doing it

If you're still offering this, I'd love to see what it's possibly about if the vouch copy hasn't been redeemed yet.

I've lost somewhere towards 100lbs in the past year, and have the motivation to push even further into my journey.

If you're still offering this service, get back to me.

If you're looking for a serious person that will adhere to your workout plans and will be motivated in making a successful body transformation, please hit me up.

And I can give you the specifics about myself.
