Thread: [BTC Accelerator & Rebroadcast Service for FREE](#)

FamousHater - December 9, 2017, 10:37 pm

Decided to open this up as getting way to many pm's needing my help with getting btc to confirm so if your btc is stuck post below the link or the Trans ID

Please DO not pm me. JUST POST IN THREAD

Mr.Peanut - December 9, 2017, 10:51 pm

This is pretty sweet, especially at a time like this with transactions taking forever. TBH I don't need this anytime soon but just giving you credit where it's due.

Deany - December 9, 2017, 10:52 pm

Accelerate this one for me plz <3

Really nice of you to do this for free. Especially for people who didn't put larger fees and are stuck with waiting for confirmations or a timed out transaction.

yea i cant accelerate it or rebroadcast as it uses blockchain to tell me if the transaction is confirmed or not as its claiming it is even tho it is not according to tradeblock which is very accurate.

Hey man,

I'm just interested, what miners do you work with for this tx accelerator, viaBTC? Or is it just rebroadcasting? Do you own the accelerator or just have permission to use it?

Thanks

EDIT: can I test this out? I'll consolidate my non-segwit transactions with a lower fee than the current mempool recommendation, and could you accelerate it for me? Never used one before but if it works then I'll point people over here for help, because I get quite a lot of help requests on stack exchange for non-RBF stuck txs to exchanges so they can't use CPFP. Cheers!

The transaction has been re-broadcast to the bitcoin network

NOTE: EVERY ONE ELSE ABOVE IS EITHER ALREADY CONFIRMED OR HAS BEEN ACCELERATED SO I CANNOT DO IT. IF IT IS NOT CONFIRMED PLEASE POST YOUR TRANS ID AGAIN AS WITH THE UNCONFIRMED DOWN TO 60K MOST TRANSACTIONS SHOULD BE CONFIRMING.

Thanks again
hi

No i do not use viatbc as it has a limit and i find it doesnt work all that well. yes i rebroadcast it as well as accelerate it. No i do not own it as i didnt know if this service was even going to become that big or useful to members. yes i can use it and you more then welcome to post all the trans ID's you have or if u wish ill make an exception for you and you can pm them to me. up to you.
and for that Transaction ID
The transaction has been re-broadcast to the bitcoin network

That's really nice of you to do, because without RBF or CPFP a lot of users don't have many other options. I'll stick with the thread because I don't want to flood your inbox though, and since the transactions will mostly already be posted on stack exchange there's little privacy concern posting it here too :)

Which miners does your accelerator communicate with? Or just rebroadcasting to all of them?

Oh I see, sweet ?
