Thread: [\[Beta Tester needed\] CS GO LOADER and Cheat and CrackMe Challenge 1/20](#)

EliteKing - December 10, 2017, 2:07 pm

I need 20 Beta testers too Test my loader and the Cheat and some Guys who try too crack my loader and say how he bypassed the protection, to make the Cheat safer.

Infos for the Testers!

I will choose Random people Just write me a PM and comment below what you can do (crack,Cheat Tester)

The Testers become the loader and the Accounts per message.

You become Livetime loader acces (Ddos Tools and More comming) you become the latest Updates First.

You can Wish your own function / Tool / Cheat / Files in the loader and have permissions to sell IT.

Posted in other sections too becouse Cheat is in c++, loader in vb, and the crackme Challenge in Re section.

When someone have Probleme with me say IT and don't delete IT.

ENJOY

YOUR ELITEKING

If there is obfuscation feel free to send it my way

i will happily test your obfuscation

i wont bother with cracking it though
