Would you be up for a deal? I've got an unused CD-KEY for Destiny 2. It's not obtained illegally. It's not even in the gray-zone. I can provide more information/details if needed.

I'm not in need of a Steam account, but why not.

I don't enjoy Destiny 2 (I have tried it at other places), so if you wish to trade - let's make a deal? ?
