Hello Andersen,

I found the font type.

<http://prntscr.com/hm46dc>

This look like the font right?

The thing is that he used Blending Options and probably a Clipping mask.

I hope it helped you out :)

Well you didnt really helped me, cuz you didnt tell me what the name of the font is ?

If anyone could recreate this easily, i would like to recieve a psd file of it. Thank you.
